

Compass Point Interiors

Environmental Policy
Compass Point Interiors Ltd

Policy Statement

Compass Point Interiors Ltd is committed to conducting its operations in an environmentally responsible manner. As a UK-registered bathroom wholesale company, we recognise the importance of sustainability and are dedicated to minimising our environmental footprint across all aspects of our business—from sourcing and logistics to distribution.

Scope

This policy applies to all activities conducted by Compass Point Interiors Ltd, including those undertaken through our third-party partners and suppliers.

Our Commitments

Compliance with Environmental Legislation

We comply fully with all applicable environmental laws, including but not limited to:

The Environmental Protection Act 1990

The Waste (England and Wales) Regulations 2011

The UK REACH Regulation (UK Registration, Evaluation, Authorisation and Restriction of Chemicals)

The Environment Act 2021

The Packaging Waste Regulations 2007

All third-party logistics and warehousing partners engaged by Compass Point Interiors Ltd are vetted to ensure full compliance with relevant UK environmental legislation.

Sustainable Sourcing

Our bathroom products are manufactured in Turkey in facilities that comply with European Union environmental legislation, including:

EU Regulation (EC) No 1907/2006 – REACH

Directive 2011/65/EU – RoHS (Restriction of Hazardous Substances)

Compass Point Interiors

Directive 2008/98/EC – Waste Framework Directive

Directive 2010/75/EU – Industrial Emissions Directive

Regulation (EU) 2020/852 – EU Taxonomy for Sustainable Activities

Waste Reduction and Resource Efficiency

We strive to minimise waste and promote the efficient use of resources, aligning our practices with:

The Waste Hierarchy as defined in the Waste (England and Wales) Regulations 2011

Guidance from the UK Environment Agency and Defra on sustainable resource use

We actively support the use of recyclable materials in packaging and encourage waste segregation and recycling in our supply chain.

Supply Chain Responsibility

We engage only with third-party logistics and warehouse providers who demonstrate a commitment to environmental responsibility.

Environmental sustainability is a key criterion in our selection and review of service providers.

Continuous Improvement

We are committed to the continuous improvement of our environmental performance by:

Monitoring our impact

Setting and reviewing measurable objectives

Keeping up to date with changes in legislation and best practices

Communication and Awareness

This policy is communicated to all employees and made available to stakeholders.
